

# BIKE FUTURES '09

## AUSTRALIA'S MAJOR BIKE CONFERENCE

Bike Futures '09 is dedicated to the people who will transform our communities into bike-friendly, economically thriving and sustainable environments. The conference is the first in an annual series designed to assist national and local leaders, planners, designers and builders respond to the critical demands brought on by the explosion in growth of bike transportation and recreation across Australia.

The conference is presented by the Bicycle Network across Australia, and hosted by Bicycle Victoria, Australia's leading bike organisation, and an international pathfinder in the development of policy, planning and activities promoting the growth of bike riding.

**Keynote Speaker: Niels Tørsløv**

*Director of the Traffic Department at the City of Copenhagen*

Bicycle Network is excited to announce keynote speaker Niels Tørsløv, Director of the Traffic Department at the City of Copenhagen, where he has guided the massive and unprecedented development of the bike transportation environment. Copenhagen will have 50 per cent of all trips by bike by 2020. Niels Tørsløv will show us how the Danish capital will get there.

MCG, Melbourne - 15 & 16 October 2009
